Proper Citation: Bernstein Network Computational Neuroscience Germany (RRID:SCR_007413)

Description: The Bernstein Network for Computational Neuroscience, Germany, is a funding initiative of the German Federal Ministry of Education and Research that supports the development of this field in Germany. Understanding the brain is the prerequisite for creating new methods for prevention and treatment of diseases of the nervous system. It may also help developing new strategies for learning and teaching. It may even be used for the design of new, "intelligent" technical devices, such as neuroprostheses or more powerful computer systems. For investigating the brain, the interdisciplinary approach of computational neuroscience, in which experts in biology, physics, psychology, medicine, mathematics and engineering join forces, holds especially promising perspectives. By combining experiment, data analysis, theoretical modelling and computer simulations, computational neuroscience allows translating basic research to targeted applications. The Bernstein Network currently comprises more than 200 research groups at over 20 locations all over Germany. It entertains partnerships with more than 20 companies. Besides its research activities, the network offers attractive teaching and training options for young researchers. A large number of open positions are available, ranging from PhD students positions up to professorships. Keywords: grant, funding, resource, training, job, research, Network, Scientist, Teaching, biology, physics, psychology, medicine, mathematics, engineering, Computational, Neuroscience, Computational Neuroscience, Germany,

Synonyms: NNCN

Resource Type: data or information resource, organization portal, training resource, portal, funding resource, job resource

Resource Name: Bernstein Network Computational Neuroscience Germany

Resource ID: SCR_007413

Alternate IDs: nif-0000-00497

Record Creation Time: 20220129T080241+0000

Record Last Update: 20260808T185858+0000

Ratings and Alerts

No rating or validation information has been found for Bernstein Network Computational Neuroscience Germany.

No alerts have been found for Bernstein Network Computational Neuroscience Germany.
