Proper Citation: Caltech, The Beckman Institute: The Biological Network Modeling Center (RRID:SCR_008060)

Description: The Beckman Institute BNMC brings together researchers from many disciplines at Caltech to address problems in the mechanistic modeling of coupled genomic, intercellular and intracellular processes. It represents an attempt to encourage closer interaction and collaboration between groups in Biology, Control and Dynamical Systems, and the Center for Advanced Computing Research. The focus of BNMC is biochemical phenomena occurring within and between cells, in particular the mechanistic modeling of molecular networks of all kinds (e.g., transcriptional, regulatory, metabolic, signal transduction, mechanical, etc.) with and without spatial variation and intercellular communication. BNMC is formed as a coordinated effort aimed at (1) applying existing capabilities to collaboratively solve biological modeling problems that arise in answering scientific questions in Caltech laboratories, (2) exploring a diversity of novel approaches in order to achieve fundamental advances necessary to address the classes of modeling problems biologists want to solve, and (3) organizing projects to better share human experience as well as common infrastructure to avoid duplication and maximize solution interoperability.

Synonyms: BNMC

Resource Type: data or information resource, portal, organization portal

Keywords: dynamical system, advanced computing, biochemical, biological model, biologist, biology, cell, control system, genomic, interaction, intercellular, intercellular communication, intracellular, mechanical, mechanistic modeling, metabolic, regulatory, signal transduction, transcriptional

Resource Name: Caltech, The Beckman Institute: The Biological Network Modeling Center

Resource ID: SCR_008060

Alternate IDs: nif-0000-10444

Record Creation Time: 20220129T080245+0000

Record Last Update: 20260812T044140+0000

Ratings and Alerts

No rating or validation information has been found for Caltech, The Beckman Institute: The Biological Network Modeling Center.

No alerts have been found for Caltech, The Beckman Institute: The Biological Network Modeling Center.
