Proper Citation: Alamogordo Primate Facility (RRID:SCR_008376)

Description: THIS RESOURCE IS NO LONGER IN SERVICE, documented on July 17, 2013. It houses chimpanzees that have been used in biomedical research, but no active, invasive research is conducted on the site. The APF provides for the long-term care and husbandry of chimpanzees that have been used in biomedical research. Charles River Laboratories Inc. operates the facility under contract with the National Institutes of Health. To be used in continuing virological research, the animals must be transferred to active chimpanzee research settings. All chimpanzees at the APF have been exposed to various microorganisms, such as hepatitis C virus and HIV. For this reason, they may be candidates for studies related to these diseases. The National Center for Research Resources (NCRR) may remove infected animals from the APF to other accredited chimpanzee facilities for research purposes. Investigators interested in the chimpanzees at the APF should contact Dr. Harold Watson in NCRR's Division of Comparative Medicine to discuss research requirements.

Abbreviations: APF

Synonyms: Alamogordo Primate Facility

Resource Type: biomaterial supply resource, material resource, organism supplier

Keywords: animal, biomedical, chimpanzee, comparative medicine, disease, hepatitis c, hiv, husbandry, infection, microorganism, primate, research, virological, virus

Funding: NCRR

Availability: THIS RESOURCE IS NO LONGER IN SERVICE

Resource Name: Alamogordo Primate Facility

Resource ID: SCR_008376

Alternate IDs: nif-0000-25894

Record Creation Time: 20220129T080247+0000

Record Last Update: 20260804T043405+0000

Ratings and Alerts

No rating or validation information has been found for Alamogordo Primate Facility.
