Description: Zoomify makes high-quality images zoom-and-pan for fast, interactive viewing on the web. Zoomify''s image viewing solutions use just HTML, JPEGs, and Flash - no large downloads, no special installs, and no server-side setup is required. And Zoomify''s innovative features provided added value including support for slideshows, hotspots, annotation, side-by-side comparison, and much more. Zoomifys products meet the high-quality, high-resolution imaging needs of creative professionals and image-centric applications. Zoomify is revolutionizing digital imaging in medicine and the sciences, image archiving and museum exhibits, defense and security, education, entertainment, and more.
