SKAT

RRID:SCR_009396
Type: Tool

Proper Citation

SKAT (RRID:SCR_009396)

Resource Information

URL: https://www.hsph.harvard.edu/skat/

Proper Citation: SKAT (RRID:SCR_009396)

Description: Software application that is a SNP-set (e.g., a gene or a region) level test for association between a set of rare (or common) variants and dichotomous or quantitative phenotypes. SKAT aggregates individual score test statistics of SNPs in a SNP set and efficiently computes SNP-set level p-values, e.g. a gene or a region level p-value, while adjusting for covariates, such as principal components to account for population stratification. SKAT also allows for power/sample size calculations for designing for sequence association studies. (entry from Genetic Analysis Software)

Synonyms: SNP-set (Sequence) Kernel Association Test

Resource Type: software application, software resource

Keywords: gene, genetic, genomic, bio.tools

Resource Name: SKAT

Resource ID: SCR_009396

Alternate IDs: nlx_154634, biotools:skat

Alternate URLs: https://bio.tools/skat

Record Creation Time: 20220129T080252+0000

Record Last Update: 20260905T133251+0000

Ratings and Alerts

No rating or validation information has been found for SKAT.

No alerts have been found for SKAT.
