Proper Citation: National Natural Science Foundation of China (RRID:SCR_011448)

Description: The National Natural Science Foundation of China (NSFC) is an organization directly affiliated to the State Council for the management of the National Natural Science Fund. # In accordance with the guiding principles, policies and plans for the development of science and technology in China and by adopting the operating mechanisms for the National Natural Science Fund which conform to the socialism market economic system, NSFC supports basic research and some of applied research, identifies and fosters talented researchers in the realm of science and technology, accelerates the progress of science and technology, and promotes the socioeconomic development in China by giving full play the guidance and coordinating role of the National Natural Science Fund from the central government. # NSFC is in charge of the management of the National Natural Science Fund. It compiles and promulgates the annual Guide to Programs for basic research and some of applied research, handles applications of research projects, and organizes peer review and select the best projects to support. It endeavors to create an academic environment conducive to innovation. # NSFC cooperates with the Ministry of Science and Technology to formulate the principles, policies and plans for the development of basic research in China. When entrusted, it provides consultation and undertakes related assignments on major issues for the development of high technology and applied research in China. # NSFC gives help and support to other Chinese foundations in natural sciences. # NSFC establishes contacts with governmental departments in charge of science and technology, science foundations and related academic organizations in other countries and carries out international cooperation and exchange. # NSFC is responsible for the administration, supervision and guidance of the subordinated bodies. # NSFC undertakes other tasks entrusted by the State Council and the State Leading Group for Science and Technology and Education.

Abbreviations: NSFC

Synonyms: National Natural Science Foundation of China (NSFC)

Resource Type: institution

Resource Name: National Natural Science Foundation of China

Resource ID: SCR_011448
