**Description:** We are a not-for-profit scientific research corporation founded in 2010. The mission of the Baker Mountain Research Corporation has three complementary aspects: to advance scientific knowledge, to develop science-based solutions to local and global challenges, and to foster scientific education. A particular challenge we seek to address is the lack of scientific career and educational opportunities in our region. We work to build an interdisciplinary community that facilitates synthetic and analytic exploration, mentorship, sharing of experiences and which provides fair financial support.
