Proper Citation: Nonparametric Prediction Activation Influence Reproducibility re-Sampling (RRID:SCR_013619)

Description: The NPAIRS (Nonparametric, Prediction, Activation, Influence, Reproducibility, re-Sampling) package provides a statistical resampling framework with GLM, PCA and CVA data analysis options forming the basic building blocks for benchmarking and comparing data processing choices and preprocessing pipelines using prediction and reproducibility performance metrics. The distribution package also includes flexible visualization and plotting tools for displaying the results of NPAIRS analyses. :

Synonyms: NPAIRS

Resource Type: data processing software, software application, software resource, data analysis software

Resource Name: Nonparametric Prediction Activation Influence Reproducibility re-Sampling

Resource ID: SCR_013619

Alternate IDs: nif-0000-00338

Old URLs: <http://neurovia.umn.edu/distrib/npairs.html>

Record Creation Time: 20220129T080317+0000

Record Last Update: 20260805T044315+0000

Ratings and Alerts

No rating or validation information has been found for Nonparametric Prediction Activation Influence Reproducibility re-Sampling.

No alerts have been found for Nonparametric Prediction Activation Influence Reproducibility re-Sampling.
