Proper Citation: TopSpin (RRID:SCR_014227)

Description: Software package for NMR spectra acquisition, processing, and data analysis. Features include: deconvolution/spectrum simulation/iteration; comprehensive functionalities for processing, displaying and analyzing one and multi-dimensional spectra; and user customization. A full list of features is available on the website.

Resource Type: data acquisition software, software resource, software application, data analysis software, data processing software

Keywords: nmr spectra, data analysis software, data acquisition software

Availability: Pay for product

Resource Name: TopSpin

Resource ID: SCR_014227
