Proper Citation: InVesalius 3 (RRID:SCR_014693)

Description: Software for magnetic resonance image reconstruction and computed tomography reconstruction. Its main application geared towards rapid prototyping, teaching, forensics, and medicine. Its features include the ability to import DICOM or Analyze files, to export files to the STL, OBJ, and PLY formats, volume rendering, and manual or semiautomatic image segmentation.

Resource Type: image analysis software, image reconstruction software, software application, software resource, data processing software

Keywords: magnetic resonance image, magnetic resonance, image reconstruction, computed tomography reconstruction, computed tomography, image reconstruction software

Availability: Free, Freely available

Resource Name: InVesalius 3

Resource ID: SCR_014693
