WinWCP

RRID:SCR_014713

Type: Tool

Proper Citation

WinWCP (RRID:SCR_014713)

Resource Information

URL: http://spider.science.strath.ac.uk/sipbs/software_ses.htm

Proper Citation: WinWCP (RRID:SCR_014713)

Description: Windows software program for recording and analyzing signals from whole cell voltage and current clamp experiments. Its features include automatic waveform measurement, quantal content analysis, command voltage pulse generation, and spontaneous event detection.

Synonyms: Windows Whole Cell Program

Resource Type: data acquisition software, software application, data processing software, data analysis software, software resource

Keywords: data analysis software, whole cell, voltage, current, clamp experiments, neuron, neuroinformatics, single cell recording

Availability: Open source for academic and non-profit use, License available for purchase for commercial organizations

Resource Name: WinWCP

Resource ID: SCR_014713

Record Creation Time: 20220129T080321+0000

Record Last Update: 20260804T043551+0000

Ratings and Alerts

No rating or validation information has been found for WinWCP.

No alerts have been found for WinWCP.

Data and Source Information
