RRID:SCR_015797

Type: Tool

Proper Citation

VaDiR (RRID:SCR_015797)

Resource Information

URL: <http://gigadb.org/dataset/100360>

Proper Citation: VaDiR (RRID:SCR_015797)

Description: Method for uncovering mutations from RNA sequencing datasets that could be useful in further functional analysis. It also allows orthogonal validation of DNA-based mutation discovery by providing complementary sequence variation analysis from paired RNA/DNA sequencing data sets.

Abbreviations: VaDiR

Synonyms: VaDiR: an integrated approach to Variant Detection in RNA

Resource Type: data analysis software, software application, data processing software, sequence analysis software, software resource, algorithm resource

Defining Citation: [DOI:10.5524/100360](https://doi.org/10.5524/100360)

Keywords: rna-seq, somatic variant calling, ovarian cancer, cancer genomes transcriptome, orthogonal validation, genetic mutation, sequence variation analysis, bio.tools

Funding: NCI P30 CA168524;
Department of Defense Ovarian Cancer Research Program W81XWH-10-1-0386;
University of Kansas Endowment Association ;
Biostatistics and Informatics Shared Resource (BISR) ;
Cancer Center Cancer Biology program

Availability: Free, Available for download

Resource Name: VaDiR

Resource ID: SCR_015797

Alternate IDs: biotools:vadir

Alternate URLs: ftp://penguin.genomics.cn/pub/10.5524/100001_101000/100360/,
