Proper Citation: A-M SYSTEMS: Model 2100 Isolated Pulse Stimulator (RRID:SCR_016677)

Description: Instrument used for a variety of physiological stimulation protocols, including behavioral feedback, LTP/LTD, lesion making, electrode marking, ultrafast timing applications, orthodromic/antidromic stimulation, and kindling. Used in a neurophysiological and physiological experiment protocols.

Resource Type: instrument resource

Keywords: A-M Systems, stimulation, instrument, neurophysiological, physiological, experiment, protocol

Availability: Commercially available
