Resource Information

URL: http://s-quest.bihealth.org/fiddle/

Proper Citation: fiddle (RRID:SCR_017327)

Description: Software interactive tool to help researchers to identify most appropriate publication format for their dataset that may be hard to publish in traditional journals. Formats include data repositories, micropublications, preprints, data journals, publishing platforms and journals that are open to null results. Users can search for publication format that meets their needs, compare and contrast formats, and find links to publishers. Open source tool to combat publication bias by getting research out of file drawer and into scientific community.

Abbreviations: FIDDLE

Synonyms: file drawer data liberation effort, fiddle

Resource Type: software application, service resource, software resource

Defining Citation: DOI:10.31219/osf.io/6mcu3

Keywords: identify, publication, format, dataset, , result, file, drawer, data, liberation, effort

Availability: Free, Freely available

Resource Name: fiddle

Resource ID: SCR_017327

Alternate URLs: https://github.com/quest-bih/FIDDLE

License: CC-By Attribution 4.0 International

Record Creation Time: 20220129T080334+0000

Record Last Update: 20260815T042735+0000
