Virginia University School of Medicine Genome Analysis and Technology Core Facility

RRID:SCR_018883

Type: Tool

Proper Citation

Virginia University School of Medicine Genome Analysis and Technology Core Facility
(RRID:SCR_018883)

Resource Information

URL: <https://med.virginia.edu/gatc/>

Proper Citation: Virginia University School of Medicine Genome Analysis and Technology Core Facility (RRID:SCR_018883)

Description: Core offers instrumentation and expertise in all areas of bulk and single cell NGS genomics and transcriptomics, as well as training to access core shared instrumentations. Services include RNA Seq, CHIP Seq, ATAC Seq, Amplicon DNA Seq, 16S ribosomal gene sequencing, shot gun sequencing for small genomes and whole exome sequencing. 10X Genomics resources include single cell CNV, VDJ, and 3 or 5 RNA seq as well as linked reads. Core provides real time and droplet digital PCR services most suitable for targeted gene expression, SNP genotyping and CNV discovery.

Abbreviations: GATC

Synonyms: University of Virginia School of Medicine Genome Analysis and Technology Core Facility, UVA Genome Analysis and Technology Core, University of Virginia UVA Genome Analysis and Technology Core, Genome Analysis and Technology Core

Resource Type: access service resource, core facility, service resource

Keywords: USEdit, genome analysis, NGS genomic, transcriptomics, RNA Seq, CHIP Seq, ATAC Seq, Amplicon DNA Seq, 16S ribosomal gene sequencing, shot gun sequencing, ABRF

Availability: Open

Resource Name: Virginia University School of Medicine Genome Analysis and Technology Core Facility

Resource ID: SCR_018883

Alternate IDs: ABRF_1024

Alternate URLs: <https://coremarketplace.org/?FacilityID=1024>

Record Creation Time: 20220129T080342+0000

Record Last Update: 20260905T133417+0000

Ratings and Alerts

No rating or validation information has been found for Virginia University School of Medicine Genome Analysis and Technology Core Facility.

No alerts have been found for Virginia University School of Medicine Genome Analysis and Technology Core Facility.
