Proper Citation: University of Edinburgh Clinical Research Mass Spectrometry Core Facility (RRID:SCR_021833)

Description: Core is part of Edinburgh Clinical Research Facility, situated in the Centre for Cardiovascular Sciences in the Queen's Medical Research Institute. We train and host undergraduate students, PhD and post-doctoral students in practical skills and mass spectrometry operation. We have expertise in sample preparation, separation and mass spectrometry analysis for targeted small molecule analysis in clinical and pre-clinical studies. We operate under Good Clinical Practice for laboratories for clinical studies. Steroids, drugs and endogenous molecules and metabolic pathways in plasma, serum, tissue. We also have Imaging Mass spectrometry capabilities with a Waters Synapt G2Si, MALDI and DESI.

Synonyms: Edinburgh Clinical Research Facility, Mass Spectrometry Core

Resource Type: service resource, core facility, access service resource

Keywords: USEDit, ABRF, mass spectrometry, targeted small molecule analysis, Imaging Mass spectrometry

Funding:

Resource Name: University of Edinburgh Clinical Research Mass Spectrometry Core Facility

Resource ID: SCR_021833

Alternate IDs: ABRF_1248

Alternate URLs: https://coremarketplace.org/?FacilityID=1248

Record Creation Time: 20220129T080357+0000

Record Last Update: 20250514T061920+0000

Ratings and Alerts

No rating or validation information has been found for University of Edinburgh Clinical Research Mass Spectrometry Core Facility.

No alerts have been found for University of Edinburgh Clinical Research Mass Spectrometry Core Facility.
