Description: Software package to improve studying tumour microenvironment with single cell sequencing. Developers may use this package to obtain data for validation of new algorithms and researchers interested in tumour microenvironment may use it to study specific cancers more closely. Curated collection of scRNAseq datasets sequenced from tumours.

Synonyms: Tumour Microenvironment Explorer

Resource Type: software toolkit, software resource

Keywords: Curated collection of scRNAseq datasets, scRNAseq datasets sequenced from tumours, improve studying tumour microenvironment, single cell sequencing,

Availability: Free, Available for download, Freely available
