**Proper Citation:** University of Pennsylvania Perelman School of Medicine Neuroimaging and Cognitive Core Facility (RRID:SCR\_022899)

**Description:** Core aims to facilitate research in cognitive neuroscience through use of Computerized Neurocognitive Battery and neuroimaging.CNB is comprised of series of tests that have been applied in neuroimaging studies and can be used either in scanner as part of functional neuroimaging study or outside scanner for measuring individual differences in performance. Tests measure accuracy and speed of performance in major domains of cognition, including executive control functions (abstraction, attention, working memory), episodic memory (verbal, facial, spatial), complex cognitive processing (language reasoning, nonverbal reasoning, spatial processing), social cognition (emotion identification, emotion intensity differentiation, age differentiation) and sensorimotor and motor speed.

#### Abbreviations: NICC

**Synonyms:** University of Pennsylvania Perelman School of Medicine Neuroimaging and Cognitive Core, Neuroimaging and Cognitive Core

Resource Type: service resource, core facility, access service resource

Keywords: USEDit, ABRF, cognitive neuroscience, neuroimaging

Funding:

Resource Name: University of Pennsylvania Perelman School of Medicine Neuroimaging

and Cognitive Core Facility

Resource ID: SCR\_022899

Alternate IDs: ABRF\_1598

Alternate URLs: https://coremarketplace.org/?FacilityID=1598&citation=1

**Record Creation Time:** 20221020T050140+0000

Record Last Update: 20250514T061943+0000

## **Ratings and Alerts**

No rating or validation information has been found for University of Pennsylvania Perelman School of Medicine Neuroimaging and Cognitive Core Facility.

No alerts have been found for University of Pennsylvania Perelman School of Medicine Neuroimaging and Cognitive Core Facility.
