Johns Hopkins University School of Medicine Mass Spectrometry and Proteomics Core Facility

RRID:SCR_025862

Type: Tool

Proper Citation

Johns Hopkins University School of Medicine Mass Spectrometry and Proteomics Core Facility (RRID:SCR_025862)

Resource Information

URL: https://biolchem.bs.jhmi.edu/mass-spectrometry-and-proteomics-core/

Proper Citation: Johns Hopkins University School of Medicine Mass Spectrometry and Proteomics Core Facility (RRID:SCR_025862)

Description: Core assists investigators to identify and quantify proteins and their modifications that are differentially expressed in cells, tissues or body fluids, to track interactions with binding partners during changes in signal transduction, and to identify proteolytic cleavage sites and map post-translational modifications by providing following proteomic services: Consultation, Sample preparation, Protein Identification, Protein Modifications, Protein Quantification, Targeted Quantification, High Resolution Mass Analysis, Training and Self-Service Equipment. Core offers workshops to use the Core's MALDI-TOF mass spectrometer, Typhoon gel imaging scanner and 2D gel electrophoresis equipment and proteomic software.

Synonyms: Johns Hopkins University School of Medicine Mass Spectrometry and Proteomics Facility

Resource Type: core facility, access service resource, service resource

Keywords: identify and quantify proteins and their modifications, track interactions, identify proteolytic cleavage sites, map post-translational modifications, proteomic services,

Funding:

Resource Name: Johns Hopkins University School of Medicine Mass Spectrometry and

Proteomics Core Facility

Resource ID: SCR_025862
