Proper Citation: Biopac: Student Lab system (RRID:SCR_028159)

Description: Biopac Student Lab system is a flexible, integrated life science teaching solution that includes hardware, software, and curriculum materials. System to conduct basic physiology lab experiments including ECG, EEG, EMG, and EOG. BSL System uses dynamic lessons with students as subjects to increase interest and retention. Students can record data from their own bodies, guided by a detailed lab manual and full color onscreen guide, and analyze the results. Students can then compare data from different experimental conditions with others in their group and with all students in the lab.

Resource Type: instrument resource

Keywords: conduct basic physiology lab experiments, ECG, EEG, EMG, EOG

Specification URL: https://raw.githubusercontent.com/SciCrunch/RRID-Instruments/refs/heads/main/PDF/SCR_028159.pdf
