Proper Citation: University of Maine CORE Small Animal Research Core Facility (RRID:SCR_028246)

Description: Core provides animal care and assists investigators in fulfilling their obligation to plan and conduct animal research in accordance with scientific, humane and ethical principles. SARF has a multizone temperature and airflow control to allow for various environments necessary to research projects. SARF also features quarantine suite with separate entrance and personal protective equipment (PPE), and is outfitted with RAIR HD Super Mouse 750 ventilated rack holding 126 cages. Daily care and feeding is provided by trained staff, and surgery prep, surgical area, and recovery area are available for use.
