Proper Citation: Agency for Science Technology and Research iCORE Immunomapping Core Facility (RRID:SCR_028993)

Description: Core provides service for one-stop spatial biology solutions from sample handling to high-end spatial data generation. Serves as a specialized bridge between laboratory research and clinical application (immuno-patho translation). Offers services in general histology, spatial transcriptomics and spatial proteomics. It primarily focuses on experiment designing, optimisation, spatial proteomic staining and imaging, allowing assay customisation, development and validation.
